MCGWG-M-39

COMIREX MAPPING, CHARTING AND GEODESY WORKING GROUP

Minutes of Meeting Held at ACIC
St. Louis, Missouri
19 November 1968

PRESIDING

25X1A

Purpose of Meeting - General

1. The planned purpose of the meeting was to acquaint members of the MC&G Working Group with the positioning programs of the USAF as presently being conducted at ACIC. Arrangements had been made with the USAF to present briefings on various items consistent with this objective.

USAF Briefings

2. [REDACTED] Commander of ACIC, welcomed the group to ACIC and offered the facilities available for the meeting. He turned over the program of briefings to [REDACTED] Technical Director of ACIC. [REDACTED] together with other key personnel of ACIC, gave comprehensive briefings identified as below:

TCS-657907-68

MCGWG-M-39

25X1A a. [REDACTED] Briefing - a comprehensive description of the various programs and current status of positioning targets for long range missiles.

b. Positioning of Reconnaissance Targets - an assignment to screen and evaluate COMIREX targets for the [REDACTED] system as to their current accuracy, the positioning of 36 targets inaccurate beyond 3,000 feet, and recommendations for further positioning work. 25X1D

25X1A c. Project [REDACTED] - an updating on the sensitive operational project briefing given by [REDACTED] on 2 April 1968. 25X1A

d. Direct Targeting Method - a description of the short arc solution and the general plans for using KH-4B and Doppler data.

e. Analytical Data Reduction and Compilation - a generalized description of the photogrammetric control and plotting processes of ACIC using KH-4 satellite photography.

f. MC&G Support of U&S Commands - an outline of the preparation of source material packages for the Recce Techs of the U&S Commands including the provision of basic geodetic-photogrammetric compilations (produced at ACIC or AMS) and general technical and equipment support.

g. Future Support of Strategic and Tactical Systems - an informational presentation on the newer systems coming down the road requiring improved positioning and new forms of terrain data which are expected to impact on MC&G organizations in the next few years. 25X1D
